Results are in from a poll taken of those in attendance at a City of Kansas City pre-primary mayoral forum earlier this week at the University of Missouri-Kansas City (UMKC) campus.

At the conclusion of the forum respondents were asked to rank the best and worst candidates in six categories, as well as who they would vote for if the election was held today. The categories were vision, integrity, leadership, communication, forum closing statement and overall impression.

A total of 77 questionnaires were collected in the poll. See below for complete results. The poll is non-scientific.

Nine of the primary's 12 candidates participated in the forum, but all were invited. Mark Funkhouser, Stan Glazer and John DiCapo were not in attendance.

The forum was sponsored by the Cookingham Institute of Urban Affairs and the Department of Political Science, both at UMKC. Other sponsors included the Public Administration Student Association at UMKC, the Bloch School African-American Student Association, Alpha Kappa Alpha, 49/63 Neighborhood Coalition, Southtown Council, and the Blue Hills Neighborhood Association.

The University of Missouri-Kansas City (UMKC), one of four University of Missouri campuses, is a public university serving more than 14,000 undergraduate, graduate and professional students. UMKC engages with the community and economy based on a three-part mission: visual and performing arts, health sciences, and urban affairs.
